

### **Cancer Center Support Grant P30 Supplement - Early Onset Cancer Research**

**One** proposal will be selected for the P-30 Administrative Supplement. Projects will be evaluated on the basis of the strength of the research and its potential for impact in the field, the use and development of research resources, the proposed institutional commitment, and the reasonableness of the proposed timeline.

If you are interested in your project being considered for this opportunity, please submit the following information as a single PDF document no later than **5:00 pm Monday May 5<sup>th</sup>**:

- Title page with the title of the project, the name of the Project Leader and any co-Project Leaders, and the names of all Key Personnel
- 1 page description of your proposed project. Be sure to describe the proposed project, the research resource(s) you will use, the potential for your project to move the science in the field forward, and the research data/resources you will produce.
- ½ page description of the institutional commitment you will seek to be responsive to this opportunity
- ½ page sketch of your timeline. Projects must be completed within 12 months of receipt of the award. Please outline briefly how you will achieve this. You can use a narrative and/or a visual timeline.
- Biosketch of Project Leader
- Biosketches for other key personnel

Submit the above information as a single PDF at:
